Now you can set the automatic cleaning of your Hydra cartridges. How?

Use your K-Matic, a compact and easy-to-install device that allows you to forget the manual cleaning operations of your self-cleaning filter. Easier done than said!

Water and dust resistant (IP54), K-Matic is simple to set by everyone. K-Matic works with a 9V battery, and its safety is ensured by a special drain shut-off in case of flat battery. A special manual wash function can be activated in case of excessive dirt, leaving you free to choose the perfect cleaning time.
